EEA geospatial data catalogue

Monitoring of CO2 emissions from heavy-duty vehicles, Reporting Period 2019-2023

Regulation (EU) 2018/956 requires EU Member States and manufacturers to report data related to heavy-duty vehicles.

Member States report trucks, buses and trailers registered in their territory.

Manufacturers report trucks of specific types that are subject to certification requirements.

The reporting periods are annual and run from 1st July to 30 June the following year. One exception was the first reporting which covered 1st January 2019 to 30 June 2020.

In addition, the dataset covers the United Kingdom and Norway who reported data in line with the Regulation (EU) 2018/956 (the UK was subject to the Regulation in the reporting period 2019-20).

Distribution Information

Distribution format	• ascii (.csv, .txt, .sql)
OnLine resource	HDV TableViewer A flattened table containing data delivered by manufacturers and EU Member States plus UK and Norway.The parameters reported are defined in Regulation (EU) 2018/956. Parameters reported by countries have a prefix "MS". Several derived or additional parameters are included to help filter and use data. These are explained in the table definition below.
OnLine resource	Table definition
OnLine resource	Zipped CSV file (280Mb)
OnLine resource	Un-zipped CSV file (3Gb)
OnLine resource	CO2 from heavy duty vehicles - statistical metadata 2024

Resource lineage

Statement	Data reported by national authorities and vehicle manufacturers.
